Press Release

Complete Sports and Management India Limited Bags ₹24 Crore Order to Build India's First and Largest Indoor Go-Karting Track

Mumbai, September 2026: Complete Sports and Management India Limited (CSML) is pleased to announce that the Company has received an order valued at approximately **₹24 crore** from a **large South India-based company** for the development and construction of what is planned to be **India's first and largest indoor go-karting track**.

The project will involve CSML in the **design, development, execution and construction of the indoor go-karting facility**, including the associated infrastructure and related requirements.

The order marks an important milestone for CSML and strengthens the Company's presence in the rapidly developing **indoor entertainment and recreational infrastructure segment**. The project also demonstrates the Company's capabilities in delivering large-scale entertainment and gaming infrastructure projects.

Commenting on the development, **Mr. Rohit Rajesh Mathur, Chairman and Managing Director of CSML**, said:

"We are pleased to receive this significant order for the development of India's first and largest indoor go-karting track. With an order value of approximately ₹24 crore, this project is an important addition to our growing order book and reflects the confidence placed in CSML's capabilities. We look forward to successfully executing the project and continuing to build our presence in the entertainment and recreational infrastructure segment."

The Company continues to focus on expanding its capabilities across **sports, gaming, entertainment and recreational infrastructure**, while developing opportunities with reputed customers across India and international markets.
